WELCOME TO TERM 2

Welcome back to Term 2! We're excited to begin another fantastic term with our Year 9 cohort as students commence their JET Plan preparation. This term, students will be engaging in the 'Make It' phase of our 2026 mantra, where they will revisit key learning skills, strengthen their teamwork and communication, and explore important employability skills for their future pathways. It's an exciting time of growth and goal-setting, and we look forward to seeing students continue to develop as confident, capable learners. We're proud of this excellent cohort and are excited for what lies ahead this term!

The Study Work Grow YouTube channel shares videos that help students explore career pathways, develop study skills, and understand future education and work opportunities.

YEAR 9 WORKSHOP DAY

Year 9 students are set for an exciting and purposeful JET Planning Day, designed to support them as they begin shaping their future pathways. In the morning, students will unpack what to expect in their upcoming JET interview sessions, building confidence and clarity around the process. They will then break into pre-selected career focus groups, where they will engage in a MyFuture exploration session, investigating industries and career opportunities aligned with their interests.

Using this learning, students will create a personal vision board that reflects their individual strengths, goals, and future aspirations, linked to their personal statements and chosen career pathways. The day will also include a shared cohort lunch, providing an opportunity to connect and celebrate their progress, before moving into a relaxed afternoon lawn bowls session for those keen to take part. It promises to be a valuable day of learning, reflection, and connection as students continue their journey of "Dream It. Make It. Do It. Live It"
