BYOxLink - How to guide

Use guest Wi-Fi service to connect student's Windows

devices

This document explains how a student can connect a Windows device to the school guest Wi-Fi network (EQGUEST) so staff can then complete the Intune enrollment on their device.

The guest Wi-Fi connection is limited and only lasts for eight (8) hours. You may not be able to access some resources such as shared network drives, printers or local school websites through the guest Wi-Fi.

Note: Sign on will only work with a valid school email address (<username>@eq.edu.au>). You should use your existing school EQ email address.

Step 1. Select the Guest Wi-Fi network

- a. Select the Wi-Fi icon at the bottom right of the screen.
- b. Scroll the Wi-Fi networks to select EQGUEST. Select Connect

Step 2. Sign on to the Guest Wi-Fi network

- a. A Sign on page will be displayed
- b. Enter your EQ email address and password

e. A success screen will display, close the window.

Note: Use the first part of your EQ email address	tes		the web Windows Security Microsoft Edge The server proxy2.eq.edu.au i password. The server reports mstaf61 C Remember my credential OK	s asking for your user name and that it is from MISIdap.	eb se

h. If your internet is not working, contact your school IT support staff for assistance.

Step 3. Next steps

To access school email, learning applications, printers and shared network drives, you will need to enrol your device into Microsoft Intune. Refer to

How to guide - Enrol your BYO Windows device into Intune or

Intune installation video for Windows devices

to complete this process.
