

Daymap Connect is an extension of the Daymap Learning Management System. It is a Parent Portal and combines communication and student management, by providing parents with access to key school and student information on their child's learning behaviour, progress and performance.

Accessing Daymap Connect

Daymap Connect can be accessed using a login and password per parent (with the option to provide multiple logins). The easy-to-use system allows parents to access details for all their children enrolled in the school, anywhere and anytime.

The Daymap Connect log in screen is shown below. This can be found by using the URL address that the school has provided.

The screenshot shows the Daymap Connect login interface. At the top left is the Daymap logo. Below it, the text 'Build SA' is displayed. A link reads 'Staff and Students click here for Daymap'. There are two input fields: 'Username' and 'Password'. A blue 'Sign In' button is positioned below the fields. At the bottom, there are two links: 'Forgot your password?' and 'Can't access your account?'.

Creating an account will differ depending on the school. Some schools will send a link via email, which you will follow to set up your account.

Alternatively, if the school has notified you that your account has been enabled, you can click **Forgot your password** and you will be redirected to a password reset page. You will need to enter your email address that is registered at the school and some schools also require the student code that they would have provided you. Once details have been entered, click on **Reset Password**. A username and password will be sent instantly to your email account.

Enter the email address you have registered with the school along with a matching valid student code. A link to set your password will be emailed to you.

Note: Due to security reasons, Daymap is unable to assist if there is an issue with accessing your account. For assistance, please contact your child's school.

Daymap Connect

Daymap Connect has different levels of access that are set by the school. A reduced access mode prevents access to sensitive student information and might be used by the school if you have not completed any required identity checks.

Daymap Connect is navigated via the tabs on the left side of the window to view messages, a calendar of events, school notices and account details.

Schools can customise which tabs are used; therefore, your parent portal may not look exactly like the images below.

Dark/Light Mode

The Parent Portal can be used in dark mode, or light mode. Click on the icon to toggle between modes
